

Drum Lids and Dust Caps

Drum Lids - Our Form Lids will protect your drum tops and your product by snapping over the drum rim and giving an extra layer of protection.

Form Lids are made for both internal and external use to specifically protect the product and drum from contamination. By fitting our Form Lids you will form an effective weatherproof and dirt proof barrier. Our heavy duty design is formed to 'snap over' the rim of your tight-head or open top drum, preventing water/contamination ingress.

Drum Lid Benefits:

- Reusable, durable snap on protection
- Designed to fit tight-head or open top drums
- Extra protection against user fallibility

Dust Caps - Internal, disposable covers for protection from contaminants such as dust, insects, dirt and moisture.

Our dust caps are a quick and easy way to secure open containers from contamination, with an elasticated seam they cover the container top securely without the potential for being blown off or slipping into the product.

Dust Cap Benefits:

- Disposable covers that protect from contamination
- Available in anti-static polyethelene
- A wide range of sizes available from 100mm to 2000mm
- Ideal for pails, drums, mixing vessels, IBC's etc.
